

Technical Buyer/Estimator

PyroGenesis Canada Inc. (PyroGenesis) is a leader in the field of plasma-based environmental technologies and has provided plasma waste to energy systems and/or sub-components to some of the most prestigious organizations in the world.

In addition to its own plasma torches, the company has developed two main environmental technologies. The PAWDS (Plasma Arc Waste Destruction System) technology was developed in collaboration with the U.S. Navy for the destruction of waste onboard aircraft carriers. The PRRS (Plasma Resource Recovery System) technology is used for converting a wide array of waste types into energy and construction products.

The company offers a rewarding work environment, possibilities of promotion and a complete benefits package.

Located in downtown Montreal, we are currently seeking a technical buyer. We are looking for a self-motivated individual, with strong interpersonal skills, good technical knowledge of chemical process equipment and a solid track record as a buyer in the fabrication industry.

More specifically, the technical buyer/estimator's tasks will include:

- Obtain and compare quotations from different suppliers, based on the technical information provided by the engineering team.
- Negotiate the technical aspects, contract terms and price of the selected quotations.
- Manage the whole purchasing process: negotiations, confirmation of acceptance by the supplier or the terms and conditions, follow up on documentation, contract amendments, claims, factory acceptance, shipping instructions, and authorize payments to suppliers
- Participate in the project meetings, providing input on technical decisions, making sure the schedule is met.
- Manage and follow up on orders, making sure the project schedule is met, in collaboration with the project managers.
- Ensure continuous communication with the suppliers during the procurement / manufacturing process. Manage change orders, non conformances and delivery delays.
- Develop and maintain the list of approved suppliers
- Work with the business development team to prepare estimates for quotations and proposals
- Develop models to assist with the preparation of quotes and proposals
- Analyze past performance of project and use this information in future estimates.

EDUCATION & QUALIFICATIONS:

- B. Eng. in an engineering discipline (chemical or mechanical)
- Bilingual (written and spoken French & English)
- Negotiation abilities
- Strong technical background

EXPERIENCE:

- Minimum 5 years experience in a similar position
